

Fartelj Enterprises Education

Fartelj Enterprises Investments develops and delivers online courses for businesses, individuals, institutions and colleges.

Courses are delivered online and organized into modules. Each module includes lesson content, a worksheet, a task and a knowledge check.

Who Can Use Fartelj Education Programs?

Fartelj Education programs are designed to support different learning and professional development needs across individuals, businesses, educational institutions, and organizations. Our programs can be used for personal development, employee training, student learning, continuing education, and organizational development.

Individuals - Develop professional skills, expand your knowledge, and prepare for changing workplace demands.

Businesses - Provide employees with practical training that supports professional development, workplace performance, and continuous learning.

Schools - Give students additional practical knowledge and skills that complement their education and prepare them for the workplace.

Colleges & Universities - Support students with practical skills and professional knowledge alongside their academic studies.

Institutions & Organizations - Use our programs for staff training, professional development, and continuous learning across your organization.

Course Format

Each course is divided into modules. Every module included lesson content, a worksheet, a task and a knowledge check.

Each course includes a certificate and a badge on completion, and is available in four pricing plans.
